## REACH – Declaration

The VTQ Videotronik GmbH is manufacturer of electronic products, thus - in the sense of REACH – we are a so-called “downstream user”. The products we supply to you are solely non-chemical products (goods). Moreover, and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substance. For that, the company VTQ Videotronik GmbH is neither obligatory for registration nor for the creation of material safety data sheet.

All current deliveries are REACH compliant. Furthermore, we will immediately inform you in correspondence to REACH-Article 33, if any substance of content (as from a content of > 0,1%) in our goods will be classified alarming by the European Agency for Chemicals (ECHA).

Independent of that fact, we are intensively pursuing the realization of REACH on the part of our suppliers; we do that in our own interest and in order to guarantee a high level of product safety for our customers. We are in close contact with our suppliers of chemistry and prepared material (e.g. raw, auxiliary and operating materials for manufacturing, processing and workmanship of our products or for the utilization within other operative processes) and will implement the pre-registration and/or later registration of the relevant materials in REACH respectively in our process of supplier qualification.

VTQ Videotronik GmbH

Dr. Steffen Enke  
CEO
