

Wireless data modem

Querfurt (Germany)

The German based company **VTQ Videotronik GmbH** has launched a new wireless data modem. It works in the licence exempt ISM frequency 868 MHz. Therefore, it can be used by anybody without a licence.

The data transmission is a digital bi-directional transmission from point to point or point to multi point. The transparent interface RS232 and RS422/485 ensures the maximum compatibility. Simple plug & play enables a high quality connection with a transmission rate of up to 78 kBit/sec. All parameters can be
